

Commonly Used Apps– Grade 5

This is a list of apps that are commonly used by students and teachers in grade 5. When the year begins, teachers may give you a few more class-specific apps. This list will give you a good start. Rely on your teachers for the rest.

Commonly Used School Apps (most are free)

- Seesaw
- Edmodo
- Notability
- Google Drive
- Pages
- Google Docs
- Google Slides
- Keynote
- Quizlet
- iMovie
- IXL

Apps and Accessories Explained on Next Page

Commonly Used Apps EXPLAINED

Apps:

- **Seesaw** – Digital portfolio app. Students upload work they do in class, parents get a notification and can see it.
- **Edmodo** – communication with teachers, class assignments, and class materials
- **Google Drive** – File management and backup – Google Drive is like a digital locker.
- **Notability** – primary note taking app for many classes
- Writing papers
 - **Pages** – Apple word processing app for typing papers and journals
 - **Google docs** – Google word processor app for typing papers. Great for collaboratively typing papers/scripts as multiple students can type in the same doc at the same time.
- Presentation apps:
 - **Google Slides** – Just like PowerPoint but operates in the cloud
 - **Keynote** – Apple version of PowerPoint, makes great slideshows
- **Quizlet** - notecard maker/review game app
- **iMovie** – Video editor/trailer maker. Add text, music, trim, slow down, speed up clips, and upload to YouTube
- **IXL** – Adaptive questioning app. Great assessment tool for students and teachers. Gives instant feedback and questions get harder or easier depending on how the student answers.
