

## Safe Image Searching

### General Tips for Safe Image Searching

1. Avoid searching for photos within apps that have 13 and under restrictions
2. Be mindful of search terms you give students (more specific is better)
3. Limiting searches to Creative Commons licensed images will minimize inappropriate material popping up
4. Understand that NOTHING is full proof

### Using Google Images

1. Make sure you have Google Safe Search turned on and locked on your devices (*see Joel for help*)
2. Search only for images licensed for reuse
  - a. Teach students how to limit search to Creative Commons licensed images

### Additional Image Search Options

1. Wikimedia Commons: <http://commons.wikimedia.org/>
2. Creative Commons: <http://search.creativecommons.org/>
  - a. The Creative Commons Search function is also good for finding music and videos licenses for reuse
